The Truth*

“More than ever, the Church needs to use every available means to tell the Good News of redemption and life in Christ. Catholic radio presents a golden opportunity to make this message heard and better understood by the widest possible audience of Catholics and non-Catholics alike.”

— The Most Reverend Leonard P. Blair, Bishop of Toledo

#### WHAT IS ANNUNCIATION RADIO?

Annunciation Radio is a Catholic media apostolate dedicated to bringing Catholic radio programming to Northwest Ohio. We are men and women of faith, from various parishes and walks of life, who are following God's call to evangelize our world.

*faith. truth. hope. strength.*

#### WHY CATHOLIC RADIO?

Catholic radio is a proven, powerful way to evangelize. Protestant and Evangelical Christian radio stations have witnessed great success in their efforts to evangelize listeners. Catholic radio offers an in-depth exploration of liturgy, devotional practices, sacraments, morality, and lives of the saints.

Working with the local Church, it helps Catholics understand what they believe and why. Plus, it's free and available to all.

#### THE GOALS OF ANNUNCIATION RADIO

- To equip faith-filled Catholics with the tools they need to live and share their Faith
- To draw our youth into wholeheartedly embracing the Faith
- To draw inactive Catholics back to the Church
- To bring others into the Catholic faith
- To connect the Catholics of Northwest Ohio with each other and with the Bishop of the Toledo Diocese

“I used to be a cultural Catholic. I went through the motions, but my faith didn't seem to make much difference in my life. When I started listening to Catholic radio, I discovered so much more depth to the Faith than I knew before. Now, my family and I truly strive to love God with all we've got and actively participate in our parish and its varied ministries.”

— D.P., Catholic radio listener

#### HOW WE WILL ACCOMPLISH OUR GOALS

- Through prayer
- By purchasing a local radio station
- By broadcasting nationally syndicated Catholic programming
- In time, by producing original programs with local content
- Through the internet, podcasting, streaming audio and other media
